**About Two Leaders.  
One Great Partnership.**

In Kolhapur, Ramesh and Hanuman Bishnoi have become synonymous with high-end window and door solutions through their 15-year legacy in the UPVC industry. Their deep-rooted local presence is powered by a strategic association with VEKA, bringing world-class German engineering to the homes and commercial spaces of the region. Known for their technical precision and commitment to durability, they specialize in fabricating systems that are specifically engineered to withstand Kolhapur's heavy monsoon rains and humid climate.

By combining their decade-and-a-half of on-ground experience with VEKA's premium lead-free and UV-stabilized profiles, the duo offers a perfect blend of international quality and local reliability. Whether it's soundproof windows for busy urban areas like Shahupuri and Rajarampuri or elegant sliding systems for modern bungalows, their work is a benchmark for quality and longevity in the city's construction sector.

### THE WINDOW ENGINEERS

While most window manufacturers design windows, we at NCL VEKA take this art a notch higher. From procuring the best quality PVC, to converting them into the strongest profiles, we attend to even the smallest of details, creating the perfect solution for your home. The end product - windows that last for nothing shorter than generations.

## PRODUCT RANGE

### CASEMENT SERIES

The I-60 Series is designed for casement doors, windows, and windows with grill and mesh. It provides options of single and double glazing, ranging from 5 mm to 32 mm. The system comes with co-extruded glazing beads for better finishing and easy installation.

### SLIDING SERIES

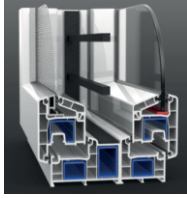

The 1-50, 1-60, I-64 & I-75 Series are designed for sliding doors and windows. The wide range provides flexibility to fabricators and end-users. They are available in 2-track, 2-track with fly-screen, 3-track etc., to suit specific customer requirements, with options of single glazing and double glazing, ranging from 5 mm to 24 mm

### COMBINATION SYSTEMS

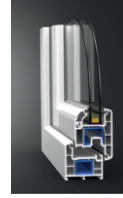

A wide range of combinations (sliding + casement) is possible with custom-built aluminum couplers to meet different architectural needs.

- Casement + Casement Fixed
- Casement + Top Hung
- Sliding + Casement Fixed

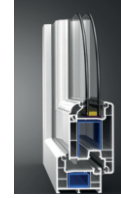

Casement Window with Grill & Mesh

Casement Window

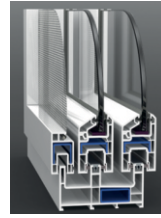

Casement Door

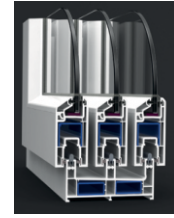

2-Track 2-Panel Window

Double Rail with Screen Sash

3-Track 3-Panel Door

All the profile extrusions are as per international standards - BS EN 12608:2003

## SPECIALITIES

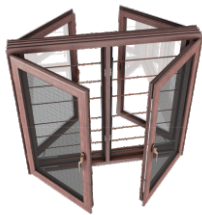

### ARCH WINDOW

VEKA I-60 Casement profiles have the flexibility to be bent into arch shapes, giving a traditional look to the building. Our in-house arch-bending facility fabricates arch windows with options of single and double glazing.

### SLIDE & FOLD DOORS

VEKA Slide & Fold Doors offer a premium look with maximum opening space, which can be integrated into your balconies or terraces. The door system is available in I-60 Casement Series with German hardware.

### TWIN SASH GRILL & MESH WINDOWS

VEKA Twin Sash Grill & Mesh Windows are aesthetically superior. Available in I-60 Casement series, they come with multi-point locking hardware that provides safety and security, and keeps insects out. There is also a grill-only option, without a mosquito screen.

### TILT & TURN WINDOWS

VEKA Tilt & Turn Windows provide an avant-garde look to your house. They are inward opening, available in I-60 Casement Series, and ensure good ventilation. They provide a higher degree of flexibility suitable for any building type.

## GREAT REASONS TO CHOOSE US.

- GERMAN TECHNOLOGY
- FLEXIBLE DESIGN OPTIONS
- END-TO-END SOLUTION
- UNMATCHED SERVICE QUALITY

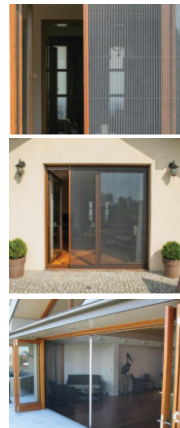

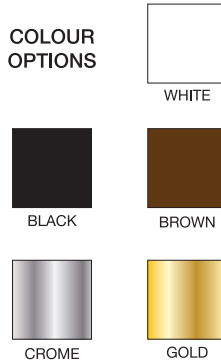

+

**10** YEARS  
Warranty on Doors,  
Windows & Hardware.\*

## HANDLE OPTIONS

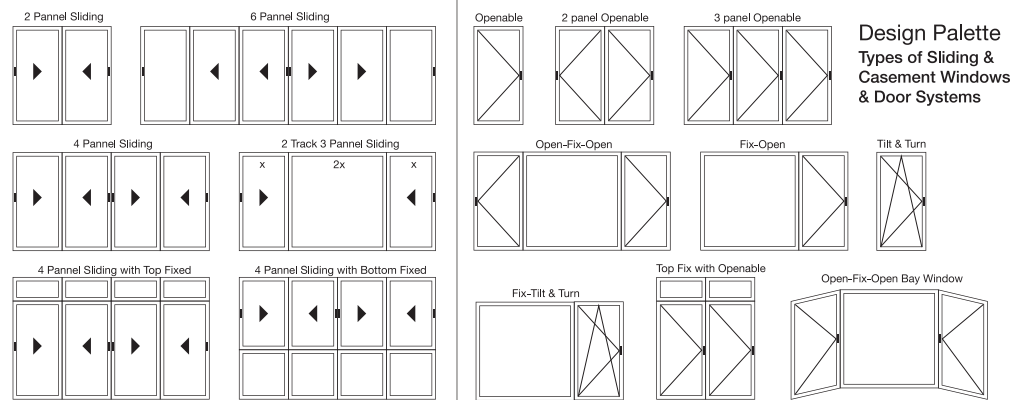

## COLOUR OPTIONS

## MOSQUITO NET

Mosquito net provides a very elegant screening solution for the high quality windows of your home by ensuring that their design and the view remain unchanged. It blends seamlessly with the window, providing protection from insects and to match the interiors at the same time. The screen disappears out of sight when not needed to restore the view. The maximum dimension possible is width 5m and height 3.3m.

## VEKA UPVC WINDOWS German Technology for Premium Living Authorized VEKA Fabricator HR WIND TECH

### WHY CHOOSE VEKA? The Clear Difference You Can Trust

- 100% Virgin uPVC No recycled material. Stronger, safer, longer life.
- Class A Profile Strength Thicker outer walls for superior durability.
- Long-Lasting White Finish Does not turn yellow even after years.
- Excellent Sound & Heat Insulation Quieter homes. Better temperature control.
- Weather Resistant No bending, cracking, or deformation in heat or rain.
- Perfect Sealing System Multi-chamber design with premium gaskets.
- 100% water-tight performance.
- A Smart Choice for Homes & Projects Apartments | Villas | Bungalows | Commercial
- VEKA vs Local uPVC VEKA means Quality. Local means Compromise.
- Projects Think Long Term. Choose VEKA. Not Cheap for Today - Strong for Years.
